Lucas Lifbom | Full-Stack Developer

Stockholm, SE | lucas.lifbom@gmail.com | lifbom.com | github.com/L-Lifbom | linkedin.com/in/lucas-lifbom

Full-stack developer with experience building SaaS and e-commerce applications. Proficient in Next.js, React, Node.js/Express, PostgreSQL, Firebase, FastAPI and AWS. Delivered production-ready features including Stripe payment flows, real-time updates, CI/CD pipelines, and responsive UIs with Tailwind. Experienced with Agile, TDD, and clean architecture. Primarily seeking full-stack roles, but open to frontend- or backend-focused opportunities on modern, cloud-native teams.

PROFESSIONAL EXPERIENCE

Full-Stack Developer – *Wonlik Toad Creations, Stockholm*
Jan 2025 – Present
Architected a green-field SaaS platform with Next.js (App Router) including TypeScript, Stripe, Firebase (Firestore, Realtime DB, Auth), Tailwind CSS, and Shadcn UI.
- Spearheaded a scalable frontend and backend architecture using Next.js App Router and Firebase services.
- Integrated Stripe Checkout & Webhooks, enabling card payments and recurring billing making the app production-ready with secure payments.
- Implemented real-time features using Firebase Realtime Database and role-based authentication.
- Designed responsive, accessible UI components with Shadcn and Tailwind.
- Led full development lifecycle: planning, version control, testing, and deployment.
- Collaborated using Kanban workflows and Git for source control.

Frontend Developer – *Chas Academy, Stockholm*
Apr 2024 – Jun 2024
Architected a frontend React-based travel planner application in collaboration with a cross-functional team of backend developers (.NET) and UX designers.
- Integrated ChatGPT via OpenAI's API to provide dynamic, AI-powered travel suggestions.
- Optimised responsive, component-based UI using React and modern JavaScript (ES6+).
- Collaborated closely with the backend team to consume RESTful APIs and ensure smooth data integration.
- Participated in agile sprints, peer code reviews, and Figma-based UI implementation.
- Focused on clean, maintainable code with reusable components and state management best practices.

PROJECTS

Dictators Demise (React, Express.js, OpenAI API)
Interactive game where users play the role of a global dictator. Used GPT prompts for dynamic branching logic
https://github.com/L-Lifbom/Dictators-Demise

Dashboard (Vite, Axios)
Dynamic web dashboard that integrates multiple public APIs to display real-time data and focused on API integration and error handling.
https://github.com/L-Lifbom/Dashboard

EDUCATION

Full-Stack JavaScript Developer – *Chas Academy, Stockholm*
Sep 2023 – Jun 2025
Completed intensive hands-on training in full-stack JavaScript development, with a focus on building modern web applications using:
- TypeScript, React, Next.js, Vue.js, SQL, Node.js, Git, Docker and deployment tools like Firebase and AWS.
- Emphasis on teamwork, agile development, and real-world project collaboration.

Network Technician – *NTI Gymnasiet, Stockholm*
Aug 2021 – Jun 2023
Studied computer networking and systems infrastructure with a practical focus on:
- Configuring Cisco routers and switches using Cisco Packet Tracer.
- Basic server management, network protocols, and troubleshooting.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python, HTML, CSS, SCSS
Frontend: React, Next.js, Vue.js, Redux, Context API, Tailwind, Bootstrap, Shadcn
Backend: Node.js, Express, FastAPI, Prisma
Databases: PostgreSQL, Supabase, Firebase (Firestore, Realtime DB), MongoDB, MySQL, Redis
Platforms & Services: Firebase (Auth, Storage), Supabase (Auth, Storage)
DevOps & Tools: Git, Docker, AWS, Jira, Trello
Testing & CI/CD: Jest, Playwright, GitHub Actions
APIs: REST, GraphQL, OpenAI API, Stripe (Checkout, Webhooks)
Methodologies: Agile, Scrum, Kanban
Design & UX: Figma, Responsive Design, WCAG
Operating Systems: Windows, Linux
